A Nation Insured. An Idea Away!

India is among the fastest growing economies globally and is on its way to become the **3rd largest economy** in the world. It is transforming, and along with it our risks, needs, and aspirations are evolving.

Life insurance, is one of the highest potential contributors to GDP as:

45%

45% of Life Insurance premium goes in Government securities

35%

35% of Life Insurance premium goes in State Government securities

74%

74% of India's total Insurance premium volumes are contributed by Life Insurance premium

Insurance plays an important role in liberating individuals.

Can you unlock this sector?

How can you take the driver's seat for this?

SBI Life is aligning with IRDAI's bold vision: Insurance for All by 2047.

We don't just need improvement. We need reinvention.

That's where you come in.

**Are you all set
to contribute to
India's growth?**

You're not just ideating. You're shaping lives.

- You bring bold, untethered thinking. You spot what legacy thinkers might miss. You are the voice of future consumers, innovators, and policy designers.
- Your idea could be the one that...

Reimagine insurance as key to financial planning

Speaks to Gen Zs on their terms

Protects urban as well as rural families with dignity

Turns financial planning into a daily ritual

The goal of IdeationX 2.0
Launch bold, future-proofed, scalable solutions — not bound by limits.

Huddle in your hostel rooms, canteens or your favourite café

Break current boundaries

Ignite conversations within SBI Life, the industry & the country

Have the power to be piloted, scaled, and spotlighted nationally

This isn't just about winning. It's about leading the evolution of trust, safety, and security in people's lives.

Your ideas will shape our collective tomorrow!

It is said that identifying the problem is half the battle won!
Focus on defining the gaps and issues in the life insurance space.

Here are a few pointers to help you along:

Identify the challenge

Who's underserved?
What's broken in insurance today?

Empathize deeply

Understand real-life
needs, fears, aspirations

Think expansively

Don't limit format—think big
(tech, culture, systems)

No limits. Just leaps.

What box? Where is the box?

Let your mind run free and get as creative and daring as possible.
Think beyond convention. Act beyond the unexpected.

Here are a few nudges that may help:

Brainstorm wildly

No boundaries, just bold,
fearless thinking

Aim for disruption

Could this be a UPI-style
game-changer?

Sketch it out

Rough visuals/storyboards
to clarify your vision

Refine. Polish. Impact.

The key to a great idea is in its execution. This is the time to take your ideas for a spin and validate their feasibility, scalability and well, impact.

Validate quickly
Test cost, feasibility,
acceptability

Forge clarity
Can you explain it in
one powerful sentence?
